

Almazov National
Medical Research Centre

CONFERENCE THEMED
“MINIMALLY INVASIVE
TECHNOLOGIES IN THE DIAGNOSIS
AND TREATMENT
OF PANCREATIC CANCER”

DECEMBER 8, 2023

DRAFT SCIENTIFIC PROGRAMME

9:15–11:00 **PLENARY SESSION**
INNOVATIVE METHODS OF NON-INVASIVE
AND MINIMALLY INVASIVE DIAGNOSTICS
OF PANCREATIC TUMORS
(live from the operating room)

Moderators: **Ilona Basek,**
Elena Parfenchikova,
Evgeny Solonitsyn

9:15–9:35 **Sergey Vorobyev.**
Malignant and premalignant lesions of the pancreas

9:35–9:55 **Ilona Basek.**
Current trends in medical imaging methods in the diagnosis
of pancreatic cancer

9:55–10:10 *Live broadcast from the operating room*

10:10–10:30 **Elena Parfenchikova.**
Endoscopic ultrasound in diagnosis and screening
of pancreatic cancer *(sponsored by BaltMedical)*

10:30–10:50 **Ivan Trusov.**
Advantages of direct visualization (cholangio-
and pancreatoscopy) in the diagnosis and differential
diagnosis of pancreatic cancer

10:50–11:00 Discussion

11:00–11:20 **Coffee break**

- 11:20–13:30** **PLENARY SESSION**
PREOPERATIVE MORPHOLOGICAL DIAGNOSIS
OF PANCREATIC TUMORS. NEW CHALLENGES,
NEW SOLUTIONS
(live from the operating room)
- Moderators:** **Sergey Vorobyev,**
 Ivan Rykov,
 Lyubov Mitrofanova
- 11:20–11:40 **Anna Poddymova.**
Obtaining material for morphological exploration
in preoperative diagnosis of pancreatic tumors
- 11:40–12:00 **Tatyana Shestopalova.**
Current trends in morphological evaluation
of pancreatic EUS-FNA material
- 12:00–12:20 *Live broadcast from the operating room*
- 12:20–12:40 **Vladislav Moiseenko.**
Molecular-biological analysis of pancreatic tumors.
Current status. Is pancreatic genetics still useless?
- 12:40–13:00 **Gleb Khrykov.**
Practical application of EUS-FNA results in clinical practice.
An oncologist's view
- 13:00–13:20 *Live broadcast from the operating room*
- 13:20–13:30 Discussion
- 13:30–14:30** **Lunch**

14:30–16:50 **PLENARY SESSION**
MINIMALLY INVASIVE PALLIATIVE TECHNOLOGIES
IN PATIENTS WITH PANCREATIC CANCER

Moderators: **Ivan Danilov,**
 Ivan Rykov,
 Stanislav Budzinsky

14:30–14:50 **Stanislav Budzinsky.**
Endoscopic retrograde interventions in mechanical jaundice treatment: upcoming trends. What is new in the last 20 years? (*sponsored by MTW-Endoscopie*)

14:50–15:10 **Vitaly Popov.**
Modern advantages and trends of percutaneous interventions in obstructive jaundice treatment

15:10–15:30 **Evgeny Solonitsyn.**
EUS-assisted interventions in obstructive jaundice of tumor genesis. Are we still at the outset? (*sponsored by R-Pharm*)

15:30–15:50 **Alexander Filin.**
Minimally invasive techniques in pain syndrome during pancreatic carcinoma

15:50–16:10 **Theodor Voiosu.**
The role of Endotherapy in optimizing clinical outcomes for patients with inoperable perihilar cholangiocarcinoma

16:10–16:30 **Alexander Pavlovsky.**
Current treatment options for pancreatic ductal adenocarcinoma: analyzing lessons learned

16:30–16:50 **Magomet Boychorov.**
Mechanical jaundice as a deterrent to surgical and conservative treatment in patients with pancreatic carcinoma

16:50–17:00 **CLOSING REMARKS**

Almazov National Medical Research Centre, 2 Akkuratova street,
Saint Petersburg

Evgeny Solonitsyn

Chair of the Scientific and Organizing Committee,

Head of Digestive Cancer Research Laboratory, WCRC for Personalized
Medicine
